Guidelines for Presentations

Important Note for Presenters

1. PLI-1 means “Plenary Session I, first presentation”
2. OI-1 means “Oral Presentation I, first presentation”
3. P-001 means “Poster Presentation 1”
4. Preview Room: Registration Desks

Oral Presentations

1. Please submit your powerpoint file that you are going to use for your presentation by 18th of September. All versions of MS PowerPoint are accepted.
2. If using embedded video clips in presentations, video files should be submitted separately.
3. Please prepare for 7 minutes presentation.
4. "Question and Answer" session will be followed at the end of oral presentation.
5. Schedule and the place for your oral presentation will be posted on the following website by September 19th at http://www.accp-asia.org

Poster Presentations

1. Maximum poster size is 90 cm (width) by 120 cm (height) (portrait style).
2. Poster boards and adhesives for hanging are supplied in the exhibition area.
3. Please refer to the poster abstract section of this book for the poster board number assigned to you. Please use the board with the same number.
4. Your poster will be displayed from 14:00 on Saturday, September 26th to 18:00 on Sunday, September 27th. Please put your poster on the designated board before 14:00 on Saturday, September 26th and remove after 18:00 on Sunday, September 27th.
5. All poster presenters are encouraged to stand from 08:00 to 09:00 on Sunday, September 27th.
P-001  Factors affecting effectiveness of influenza vaccine among dental staff and students of universiti kebangsaan Malaysia  
Hesham Rashwan  
Faculty of Pharmacy, Universiti Kebangsaan Malaysia, Malaysia  
145

P-002  Evaluation of the morbidity of depression in lowering bone density between sexes  
Jaafer M. Kurmanji  
Master Degree Candidate in Department Clinical Pharmacy, of Pharmaceutical Sciences, University Sains Malaysia, Malaysia  
146

P-003  Analysis the efficacy on regulatory regime of perioperative prophylactic standard use of antibacterials  
Ruiling Chen  
Tiantan Hospital Affiliated to Capital Medical University, China  
147

P-004  Validity and reliability of the thai mini asthma quality of life questionnaire in easy asthma clinic, srinagarind hospital  
Sunee Lertsinudom  
Faculty of Pharmaceutical Sciences, Srinagarind Hospital, Thailand  
148

P-005  Evaluation of the analgesic activity of curcuma mangga val & zijp rhizomes  
Wantana Reanmongkol  
Department of Clinical Pharmacy, Faculty of Pharmaceutical Sciences, Prince of Songkla University, Thailand  
149

P-006  Outcome of indinavir/ritonavir (IDV/RTV) containing regimen in human immunodeficiency virus  
T. Ponto  
Clinical Pharmacy Department, Universiti Teknologi MARA Malaysia, Malaysia  
150

P-007  The complications of pneumonia in Malaysia (a pilot study)  
Syed Azhar Syed Sulaiman  
Clinical Pharmacy & Dean, School of Pharmaceutical, Universiti Sains Malaysia (USM), Malaysia  
152

P-008  Tobacco smoking as a predictor of unfavourable treatment outcomes among tuberculosis patients in Malaysia  
Syed Sulaiman Syed Azhar  
School of Pharmaceutical Sciences, Universiti Sains Malaysia, Penang Hospital, Malaysia  
153
P-009  The pharmacist as a patient's source of information in Asia: United Arab Emirates as example
Feras Jassim Jirjees
College of Pharmacy, Sharjah University, United Arab Emirates, USM, Malaysia

P-010  Angiotensin converting enzyme inhibitor/angiotensin receptor blocker use in patients admitted with acute coronary syndrome in a multicentre audit of a developing country
Lee Len Tiong
Department of Pharmacy, Sarawak General Hospital, Malaysia

P-011  Evaluation of intensive care unit-acquired urinary tract infections in Singapore
Joyce Lee
National University of Singapore, Singapore

P-012  Adherence to antiretroviral therapy correlated with elevation of CD4 cell count: a study on HIV outpatient population at Dr. Saiful Anwar Hospital-Malang, Indonesia
Reta Anggraeni Widya
Department Pharmacy Saiful Anwar Hospital, Faculty of Medicine Brawijaya University, Indonesia

P-013  Effects of Haematococcus Astaxanthin, as an antioxidant, on oxidative stress in overweight and obesity
Hye Duck Choi
College of Pharmacy, Seoul National University, Korea

P-014  Effect of intravenous pentoxifylline in inflammatory response in patients undergoing nephrolithotomy
Fatemeh Izadpanh
Department of Anesthesiology, Sina Hospital, Tehran University of Medical Sciences, Iran

P-015  Association between chronic hepatitis virus infection and diabetes mellitus among Malaysians
Hani Kareem Hamoodi
Department of Clinical Pharmacy, School of Pharmaceutical Science, Universiti Sains of Malaysia, Malaysia

P-016  Awareness of smoking cessation program in primary health care centre
Rosnani Hashim
Faculty of Pharmacy, Cyberjaya University College of Medical Sciences, Telok Panglima Garang, Malaysia
P-017  A randomized double blind placebo-control study on efficacy and safety of viva QS for smoking cessation in Malaysian adult smokers  
Zaswiza Mohamad Noor  
*Kulliyyah of Pharmacy, International Islamic University Malaysia, Malaysia*  
------------------------------------------------------------------------------------------------------------------------------------- 164

P-018  The management of antituberculosis drugs induced hepatotoxicity  
Wilawan Thongraung  
*Department of Clinical Pharmacy, Faculty of Pharmaceutical Science, Prince of Songkla University, Thailand*  
------------------------------------------------------------------------------------------------------------------------------------- 165

P-019  Study of medication administration record implementation in neurology ward, dr soetomo general hospital surabaya-indonesia  
Irvingina Harini  
*Department of Pharmacy Dr. Soetomo General Hospital, Indonesia*  
------------------------------------------------------------------------------------------------------------------------------------- 166

P-020  Optimising immunosuppressant in liver transplant patients  
Mei Ling Yee  
*Principal Clinical Pharmacist, Liver Transplant Service, Singapore General Hospital (SGH), Singapore*  
------------------------------------------------------------------------------------------------------------------------------------- 167

P-021  Pharmaceutical care in chronic obstructive pulmonary disease outpatients  
Wirphol Phimarn  
*Faculty of Pharmacy, MSU, Thailand*  
------------------------------------------------------------------------------------------------------------------------------------- 169

P-022  Corticosteroid profile in patients with nephrotic syndrome at pediatric health department dr soetomo teaching hospital-surabaya-indonesia  
Yulistiani  
*Clinical Pharmacy Department, Airlangga Pharmacy Faculty, Surabaya, Indonesia*  
------------------------------------------------------------------------------------------------------------------------------------- 170

P-023  A microscopic examination from AIDS patients with oropharyngeal candidiasis after fluconazole and itraconazole teraphy  
Muhammad Yahya  
*Hospital Pharmacy Department, Dr. Soetomo General Hospital Surabay, Indonesia*  
------------------------------------------------------------------------------------------------------------------------------------- 172

P-024  A study on incidence, predictors and management of dyslipidemia related to systemic lupus erythematosus (SLE)  
Siti Hajar Mohd Jalil  
*Department of Pharmacy Selayang Hospital, Malaysia*  
------------------------------------------------------------------------------------------------------------------------------------- 173

P-025  Study of the influence of education and income level toward patient’s awareness on drugs label in self medication  
Liza Pristianty  
*Faculty of Pharmacy Airlangga University, Surabaya, Indonesia*  
------------------------------------------------------------------------------------------------------------------------------------- 174
P-026 Correlation between antimicrobial resistance and antimicrobial use in escherichia coli producing ESBLs
Jia CAO
Department of Pharmacy, Department of Respiratory Disease, The First Affiliated Hospital of Nanjing Medical University, China

P-027 Evaluation of therapeutic interchange policy in surat-thani hospital
Apichat Phetmoreekul
Surathani Hospital, Thailand

P-028 Thappraise efficacy of imipenem in critically ill patients undergoing continuous venovenous hemofiltration basing on pharmacokinetic/pharmacodynamic parameters
Nguyen Thi Hong Thuy
Bach Mai Hospital, Vietnam

P-029 Research on applying methods of amikacin monitoring at poison control center of bach-mai hospital
Nguyen Thi Hong Thuy
Bach Mai Hospital, Vietnam

P-030 Evaluation of a renal function based dosage adjustment system in seoul national university bundang hospital
Byung Koo Lee
Department of Pharmacy, Seoul National University Bundang Hospital, Korea

P-031 Optimal glycemic control to reduce mortality in surgical intensive care unit
Kyung Hee Kim
College of Pharmacy & Division of Life and Pharmaceutical Sciences, Ewha Womans University, Korea

P-032 Clinical and mycological efficacy of fluconazole and itraconazole in aids patients with oropharyngeal candidiasis
Muhammad Yahya
Hospital Pharmacy Department, Dr. Soetomo General Hospital Surabaya, Indonesia

P-033 Progression and outcomes of chronic kidney disease patients in district hospitals
Pongpitak Mikkata
Pharmacy Department, Lueamnat Hospital, Lueamnat District, Amnatcharoen Province, Thailand
P-034 Adherence to mineral and bone disorder clinical practice guidelines in chronic kidney disease
Warisara Panawong
Division of Pharmacy Practice, Faculty of Pharmaceutical Sciences, Khon Kaen University, Thailand

P-035 Combination of insulin and acarbose in the treatment of type 2 diabetes
Tri Andayani
Department of Pharmacology and Clinical Pharmacy, Faculty of Pharmacy Gadjah Mada University, Yogyakarta, Indonesia

P-036 Evaluate the glycemic control in patients receive oral hypoglycemic agents alone, patients receive oral hypoglycemic agents with insulin, and those receive insulin only
Kansaa A. Ibrahim
School of Pharmaceutical Sciences, USM, Malaysia

P-037 Experience and knowledge of diabetic patients about their medications use: a qualitative study among patients attending a university primary care center in Malaysia
Harith K. Al-Qazaz
School of Pharmaceutical Sciences, University Sains Malaysia, Malaysia

P-038 Quality indicators for diabetes care in practice guidelines and applying in the district hospital
Utoomporn Parinyasakulwong
Pharmacist, Sanagkanikom Hospital, Sanangkanikom District, Amnatcharoen, Thailand

P-039 The effect of diabetic patient’s knowledge on glycemic control in the united arab emirates
Hala Mahdi
Department of Clinical Pharmacy - School of Pharmaceutical Sciences - Universiti Sains Malaysia (USM), Malaysia

P-040 Perception of insulin therapy in patients with type 2 diabetes mellitus in singapore
Joyce Lee
Department of Pharmacy, National University of Singapore, Singapore

P-041 Risk of coronary heart disease in type 2 diabetes estimated using UK prospective diabetes study risk engine in penang
Saif Aldin R. Abdul Majeed
School of Pharmaceutical Sciences, Universiti Sains Malaysia, Malaysia

P-042 Self monitoring and compliance of type ii diabetes mellitus in primary health care centre
Fauziah Zamri
Faculty of Pharmacy, Cyberjaya University College of Medical Sciences, Malaysia
P-043 Adherence to antihypertensive medication and pre-dialysis blood pressure in ESRD patients with suboptimal intermittent hemodialysis at dr saiful anwar hospital
Rudy Salam
*Laboratory of Pharmacy, Faculty of Medicine, Brawijaya University, Indonesia*

195

P-044 Chronic kidney disease screening by KIDS questionnaire
Aporanee Chaiyakum
*Division of Pharmacy Practice, Faculty of Pharmaceutical Sciences, Khon Kaen University, Thailand*

197

P-045 Profile and effectiveness of antihypertensive medications in ESRD patients covered with different health insurance: ASKES (goverment employee) versus JAMKESMAS (financially poorer patients)
Agus Sunarko
*Departement of Pharmacy, Dr. Saiful Anwar Malang, Jl. Jaksa Agung Suprapto, Indonesia*

198

P-046 The effect of N-acetylcystein on urinary nitric oxide and urinary albumin in stage 1-4 nondiabetic chronic kidney disease patients
Yulistiani
*Clinical Pharmacy Department, Airlangga Pharmacy FacultyDr. Soetomo Teaching Hospital, Indonesia*

200

P-047 Effect of drug dosage adjustments according to renal function in diabetic patients at outpatient department
Patchariya Thonhongs
*Community Hospital Clinical Pharmacist, Thailand*

201

P-048 Complexity of regimen, knowledge and compliance in the management of hypertensive patients in primary health care centre
Aslinda Jamil
*Faculty of Pharmacy, Cyberjaya University College of Medical Sciences, Malaysia*

202

P-049 Factors affecting compliance among oral hypoglycemic agents (OHA) users at a public hospital in Malaysia
Mudassir Anwar
*School of Pharmacy and Health Sciences, International Medical University, Malaysia*

203

P-050 Medication reconciliation in patients with chronic kidney disease (CKD)
Ather Jassim
*Faculty of Pharmacy, Cyberjaya University College of Medical Sciences, Malaysia*

205
P-051  Effects of pharmaceutical care on drug related problems in hypertensive patients at the primary care unit  
Theerapong Seesin  
The Faculty of Pharmacy Mahasarakham University, Thailand  
......................................................................................................................................................... 206

P-052  Dose regimentation of insulin in hospitalized patient with type 2 diabetes mellitus  
Junaidi Khotib  
Department of Clinical Pharmacy, Faculty of Pharmacy, Airlangga University, Indonesia  
......................................................................................................................................................... 207

P-053  Glycaemic targets achieved among type 2 diabetes patients  
Salwa Selim Ibrahim  
Discipline of Clinical Pharmacy, School of Pharmaceutical Sciences, Universiti Sains Malaysia, Malaysia  
......................................................................................................................................................... 208

P-054  Hypertension among type 2 diabetics  
Salwa Selim Ibrahim  
Discipline of Clinical Pharmacy, Dean of School of Pharmaceutical Science, (USM), Malaysia  
......................................................................................................................................................... 209

P-055  Drug use pattern in patients with acute myocardial infarction at roi-et hospital  
Pisacha Muang Roi-et, Thailand  
......................................................................................................................................................... 210

P-056  Identification of drug related problems in geriatric patient hospitalized in irma1 dr sardjito hospital, yogyakarta, indonesia  
Fita Rahmawati  
Faculty of Pharmacy, Gadjah Mada University, Malaysia  
......................................................................................................................................................... 211

P-057  Potential repeated drug allergy in primary care service network  
Pongpan Suriyong  
Department of Pharmacy, Saraphi Community Hospital, Thailand  
......................................................................................................................................................... 212

P-058  Adr networking: an empowering tool for excellence  
Kannika Thiankhanithikun  
Faculty of Pharmacy, Chiang Mai University, Thailand  
......................................................................................................................................................... 213

P-059  Reviewing the drug information services provided by the pharmacy department at matilda international hospital, Hong Kong  
Grace Tin Yan Lau  
Pharmacy Manager, Pharmacy Department, Matilda International Hospital, Hong Kong  
......................................................................................................................................................... 214
